

## HARRY THE HEAD

# HOW TO PLAY 'HOGOPOLY'

The Game of Butchers and Bacon

Detach the centre pages from the comic, and you can refer to these rules as you play!

You'll need – One dice. A counter each. And a pen and paper to keep each player's cleaver-count.

### OBJECT OF THE GAME

Your objective is to become Top Hog by collecting 1000 or more butchers' cleavers!

### HOW TO MOVE

Any number can play. Throw the dice. Highest throw goes first.

Move around the board on the yellow squares. Black squares are NOT for playing on.

Start on the STY square, and move in either of the directions indicated by the arrows.

YOU MUST ALWAYS CONTINUE IN THE DIRECTION YOU HAVE STARTED MOVING, AND CARRY ON IN THE SAME DIRECTION THE NEXT TURN.

When you cross a square with the red arrow symbols, you can change direction to follow any of the arrows... BUT YOU CANNOT GO BACK THE WAY YOU CAME! NOT AT ALL! GOT IT?

(Anyone who can't remember the direction they were

moving automatically loses 100 cleavers! You could set a time limit on moves, say 20 seconds, if people are taking too long to decide which way to go).

### HOW TO SCORE

You start the game with a score of 200 cleavers. If your cleaver-count drops to ZERO or below, you must go to the 'MEAT-WAGON' square... and stay there 'til you throw a 6 to get out.

(If you land on the 'MEAT-WAGON' square in the normal course of the game, you're 'JUST OVERTAKING', and you don't have to stay there).

Follow the instructions on each square you land on, and add or subtract points according to these instructions.

### HOW TO WIN

The first person to land back on the STY square with a score of 1000 or more cleavers wins the game! YOU MUST THROW THE EXACT NUMBER TO LAND ON 'STY'... if you overshoot, you've got to keep moving round 'til you come to it again!

Keep a careful score, and good luck, piggy-pals!

## Thousands of RECORDS\* to be won! in SNATCHER SAM'S PUZZLE CORNER!

A burglar intends to rob a high-street bank. He knows that the manager opens the front doors every Tuesday at three minutes past nine exactly. It will take me...oops... the burglar...exactly fourteen and a half seconds to rush up to the counter and hand over my...er,his, that is, note. Allowing three minutes seventeen seconds for the cashier to go to the safe and get the money, how long do I...er...does the burglar have to make my escape, assuming an average escape speed of eight miles per hour, with the cops taking two minutes thirty three

seconds to arrive after the alarm button is pressed? Furthermore, if I leave my bike chained up outside the Taiwanese takeaway in Featherstone Road, one hundred and twenty six yards from the bank, and can pedal at forty-nine revolutions per minute, what route should I...er,he take to get home to Loganberry Crescent before the rozzers call round? Send all suggestions...er sorry, answers to Snatcher Sam, 44 Loganberry Crescent, Robford, Nr. Pinchley or c/o British Steal plc, Freepost, Spain.

The winner will receive a large wad of un-marked, used readies and a suspended sentence by return of post.
